ECPA

Educational Cooperative Purchasing Alliance

The Educational Cooperative Purchasing Alliance (ECPA) is a collaborative alliance between eight Indiana education service centers dedicated to streamlining the purchasing process for member school districts. ECPA's purchasing team actively works to remove barriers for schools, streamlining and simplifying the procurement process while ensuring full compliance with state and federal regulations. Through vetted contracts with leading vendors, ECPA enables districts to leverage collective buying power to secure high-quality goods and services at significantly reduced costs.
